

## Ovid Discovery Library Service Management tools

Ovid Discovery is a Library Service Management product, offering you several tools and functionalities that enable you to fulfil all your library's needs:

- *Online Forms*
- *Calendars*
- *Polls*
- *Document Delivery*
- *Blogs*
- *And more...*

You can find examples of these tools at ODS general demo: <https://wkh.ovidids.com/>

### Online Forms

- *Using this tool, you can quickly and easily create different online forms to improve workflow and communication with your users.*
- *Library users can communicate with you using an online form that you can publish in any web resource, including ODS landing pages.*

Here are some examples:

Article Request:

<https://wkh.ovidids.com/forms/Article%20Request>

Book a Place on a Training Course:

<https://wkh.ovidids.com/forms/Book%20a%20Place>

Ask for a Clinical Query:

<https://wkh.ovidids.com/forms/Clinical%20Question%20Form>

Contact the Library:

<https://wkh.ovidids.com/forms/Contact%20the%20Library>

You can create and manage online forms at *Admin > Content Management > Forms*.

## Calendars

- Using the Ovid Discovery Calendar tool, you can promote different events, conferences, and training sessions offered by your library or institution.
- You can publish calendars in your ODS landing page:

The screenshot displays a dashboard with several content modules:

- TopArticles**: A search box for "Most viewed Ovid articles by subject:" with a "Go" button.
- Ovid Expert Searches**: A section for expert search results.
- Most Popular Records viewed:** A list of five articles, including "The role of abemaciclib in treatment of advanced breast cancer" and "Management of high blood pressure in patients with high cardiovascular risk".
- Saved Searches**: A list of saved search terms such as "pakudismo", "diabetes", and "smoking cessation products".
- Library Training Calendar**: A calendar for March 2019. The 28th is highlighted in red, with an event below it: "Nursing Searching Conference - Auditorium" from 09:00:00 to 09:30:00.
- Trip**: A search box for travel-related content.
- PICO Search**: A search interface with filters for "Full-text available" and "Peer reviewed".

You can create and manage online forms at Admin > Content Management > Calendars.

## Polls

- Using Ovid Discovery Polls, you can create a poll or survey, asking your users about one specific topic, e.g. a feature, course, need or addition to the library.
- These are easy to create and maintain, and are a quick way to collect user feedback.

The screenshot shows a poll and a search interface:

**How likely would you recommend the new Library portal to a friend or a colleague?**

10 - Very Likely  
 9 -  
 8 -  
 7 -  
 6 -  
 5 -  
 4 -  
 3 -  
 2 -  
 1 -  
 0 - Not likely at all

## Document Delivery

- Through the Document Delivery feature on ODS, you can easily enable users to request any document or article that isn't available in the library's holdings.
- The ODS Document Delivery system can be fully customized and branded.
- ODS automatically imports all article details into the Document Delivery form.
- You can configure the ODS Document Delivery feature so it's only displayed when no other full text option is available.

### Request Document from the Library

Please fill in all necessary fields designated with an asterisk (\*)

**PERSONAL DETAILS:**

**First Name \***

**Last Name \***

**Email \***

**Job Title**

**Organization**

**Department**

**Address**

**Telephone**

**I agree with Copyrights and Library regulations**

By clicking this button I agree to the Library's Copyright regulations

Please click the send button to process your order.

- All Document Delivery requests are automatically recorded under *Admin > Document Delivery > Orders*.
- Requests report can be exported into Excel for analysis and monitoring purposes:

Orders
