Ovid Discovery is a Library Service Management product, offering you several tools and functionalities that enable you to fulfill all your library’s needs:

- Online Forms
- Calendars
- Polls
- Document Delivery
- Blogs
- And more...

You can find examples of these tools at ODS general demo: [https://wkh.ovidds.com/](https://wkh.ovidds.com/)

**Online Forms**

- Using this tool, you can quickly and easily create different online forms to improve workflow and communication with your users.
- Library users can communicate with you using an online form that you can publish in any web resource, including ODS landing pages.

Here are some examples:

  **Article Request:**  
  [https://wkh.ovidds.com/forms/Article%20Request](https://wkh.ovidds.com/forms/Article%20Request)

  **Book a Place on a Training Course:**  
  [https://wkh.ovidds.com/forms/Book%20a%20Place](https://wkh.ovidds.com/forms/Book%20a%20Place)

  **Ask for a Clinical Query:**  
  [https://wkh.ovidds.com/forms/Clinical%20Question%20Form](https://wkh.ovidds.com/forms/Clinical%20Question%20Form)

  **Contact the Library:**  
  [https://wkh.ovidds.com/forms/Contact%20the%20Library](https://wkh.ovidds.com/forms/Contact%20the%20Library)

You can create and manage online forms at Admin > Content Management > Forms.
Calendars
- Using the Ovid Discovery Calendar tool, you can promote different events, conferences, and training sessions offered by your library or institution.
- You can publish calendars in your ODS landing page:

You can create and manage online forms at Admin > Content Management > Calendars.

Polls
- Using Ovid Discovery Polls, you can create a poll or survey, asking your users about one specific topic, e.g. a feature, course, need or addition to the library.
- These are easy to create and maintain, and are a quick way to collect user feedback.
Document Delivery

- Through the Document Delivery feature on ODS, you can easily enable users to request any document or article that isn’t available in the library’s holdings.
- The ODS Document Delivery system can be fully customized and branded.
- ODS automatically imports all article details into the Document Delivery form.
- You can configure the ODS Document Delivery feature so it’s only displayed when no other full text option is available.

All Document Delivery requests are automatically recorded under Admin > Document Delivery > Orders.
- Requests report can be exported into Excel for analysis and monitoring purposes:
Blogs
- Blogs allow your users to post their own comments, that you can share across your institution.
- You can implement Journal Club features or start discussions about current and popular topics.

*This feature is only available in OvidDiscovery Professional version

Other Features...
- RSS feeds – create automatically updated RSS feeds that you can publish in your library portal for:
  - Articles that reference your institution (Your Institution’s Scientific Production)
  - Latest articles on current topics
  - Most viewed articles within your institution, and more...

Current articles in...

- mental health for postpartum women

Current Articles on...

- Alternatives to Opioid Prescribing

- U.S. prescribing trends of fentanyl, opioids, and other pain medications in outpatient and emergency department visits from 2000 to 2015

- Chronic Opioid Prescribing in Primary Care: Factors and Perspectives.

- From pain treatment to opioid dependence: a qualitative study of the environmental influence on codeine use in UK adults
