

STAY CONNECTED

NEJM
Evidence

Stay connected to innovative, original research and fresh, bold ideas in clinical trial design and decision-making.

With your free *NEJM Evidence* account and your institution's subscription, you can now access *NEJM Evidence* remotely. Seamlessly pair your account rather than your device.

Connect through Your Organization

Simply sign in to evidence.nejm.org or create your free *NEJM Evidence* account using any device — phone, tablet, laptop, desktop — while you are within your organization's network. Your institutional access rights will be automatically applied to your *NEJM Evidence* account for a period of 180 days.

Weekly Updates

Your free evidence.nejm.org account also lets you keep up with the latest content by signing up to receive the This Week email notification, which contains the table of contents and weekly updates on newly published articles.

Follow us on Twitter (@NEJMEvidence)

Be part of the community, join in the conversation, and follow real-time content.

HOW TO CREATE A FREE NEJM EVIDENCE ACCOUNT

Log into your institution's network, then go to *NEJM Evidence* and click on "Create Account."

STEP 1

- Enter your email address
- Create a password

STEP 2

- Enter your country

STEP 3

- Enter your credentials

STEP 4

- Complete your registration

Don't forget to sign in to your account via your institution's network every 180 days to continue remote access.

Visit with your librarian for more information.
